# WHAT IS UAP?

## SHOULD WE BE CONCERNED?

Words By: Pratik Ghone

### UAP STANDS FOR UNIDENTIFIED AERIAL PHENOMENA

It is a term used to describe any flying object or event that cannot be easily explained by conventional means. UAPs are also sometimes referred to as UFOs (Unidentified Flying Objects), but the former term is preferred by some researchers and officials who want to avoid the stigma and speculation associated with the latter. UAPs have been reported throughout history, but they have gained more attention and credibility in recent years due to several developments.

Some of these developments are:

# QUARTZ
